MAUA BANK,

101—103 CALLE CANGALLO

The Offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank :—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of checques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency in which case forty-eight hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 10 a.m. till 3 p.m.

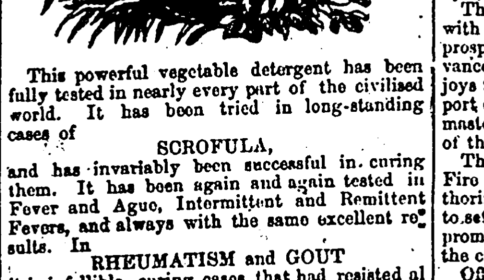
THE BATTLE OF LIFE.

Which is continually going on between health and disease, has never received from any Medicine such marked and unmistakable assistance, on the side of health, as it has from

BRISTOL'S SARSAPARILLA.



This powerful vegetable detergent has been fully tested in nearly every part of the civilised world. It has been tried in long-standing cases of

SCROFULA,

and has invariably been successful in curing them. It has been again and again tested in Fever and Ague, Intermittent and Remittent Fevers, and always with the same excellent results. In

RHEUMATISM and GOUT

it is infallible, curing cases that had resisted all other treatment for nearly a lifetime, allaying every phase of inflammation, and leaving the joints in a natural condition. In

OLD SORES

it is a sovereign remedy—causing new circulation of the blood around the edges of the sore, are speedily filling up and drawing together the flesh; which in old sores is generally inert and lifeless. In

SORE EYES and RUNNING EARS

the effect is truly wonderful. The scrofulous and depraved blood and humors on which such sores feed and live, are neutralized at the stomach, the fountain-head, and new and healthy blood soon washes away every vestige of disease. In

ULCERS AND TUMORS,

the effect is equally gratifying, although, of course, it is necessary to persevere for some months in diseases such as those having their origin in bad blood and humors; and in such diseases as

CANCER,

the Sarsaparilla should be continued for at least four or five months after the trouble has to all appearance been overcome, because unless this is done, and the nature of the blood and humors be entirely changed throughout the whole body, the disease is liable to return with unabated force. In

BOILS and CARBUNCLES

the Sarsaparilla should be taken five or six times a day, but not in very large doses—say, two or three tablespoonfuls at a time. And in all of these diseases we strongly urge the use of Bristol's Sugar-coated Pills, in conjunction with the Sarsaparilla, taking two or three Pills every second night on retiring to rest. In this way cures will be more speedily effected.

It being an admitted fact, that "Money makes money," the object of LA BIENHECHORA could not be better, since it opens a vast Savings Bank for the surplus or savings of the Public, so that, by the proper employment of these small gains, a moderate capital, or even annuity, may be secured in a short time. By this means a provident, though helpless, family can husband their small means, and, in the end, attain a competency.

It being proved that the accumulation of interest is the most powerful means of augmenting the capital, THE BIENHECHORA DEL PLATA—an Argentine Company, whose only investments are in the country—holds out to Subscribers greater advantages than any other Institution, by reason of all its dealings being in the River Plate, where are current as large interests as in any part of the world.

THE BIENHECHORA DEL PLATA receives Deposits of from Five Patacones per Annum up to any amount in Weekly, Monthly, or Yearly Instalments.

THE POLICIA.

'Tis a remarkable fact, that the institution of all others most essential for society—the Policia—is in the River Plate the most neglected. Verily, the police establishment of Buenos Ayres defies reform; abuses in that department remain and exist to this day, which are a disgrace to us all; and we are safe in saying that the Policia of Buenos Ayres is more effete and less efficient than in by-gone days, when the Tunas fringed the Plaza Victoria.

Three centuries have elapsed since the European placed his footprints on these shores. Had the Chocktaw, the Iroquois, the Catabaw, the Chickasaw, the Mug, the Thug, or the Esquimaux, been the founders of Buenos Ayres, their posterity could not boast of a more disgraceful policia, Two hundred thousand civilized human beings inhabit this city, completely circumnavigated by tax-gatherers and fine collectors. We pay through the nose if we gallop our horse, or allow a bale of goods to remain five minutes on the side walks; fines and penalties for every imaginable mistake, offence, or mishap exist; but the public villains, who betray their trust and neglect their duties, get off scot free. Has any man in this blessed city ever heard of a police comisario being fined?

Tom Paine himself, with his peremptory superficialities, would be completely outwitted did he flourish in the year of our Lord, 1869, in this unfortunate city. The age of reason is gone—the epoch of insanity has set in. Here we are, all struggling to live, and taking from our wives and children part of our hard-earned gains, to keep up the mockery and farce of a Policia. Words of fire we want to start the public to a sense of its duty; the murder of young Casares, in the Plaza Parque, the escape of the assassin from the very portals of the Policia, fill up the grand diapason of griefs which, through every octave and chord, tone and semi tone, quaver and demi-semi quaver, pour out the lamentations and interminable sorrows of the hapless population of Buenos Ayres.

Some short time ago a sweeping police reform was talked of; English policemen were to be brought out; a proper force organised, and the whole establishment set out on a new footing; but Buenos Ayres, like hell, is paved with good intentions. We are all schemes and projects; we can beat the whole civilized world in this line—nay, more ore, we can challenge the globe for a land where greater impunity for crime exists.

The influence of police establishments upon the morals of society is generally admitted to be extensive whether for good or for evil, and experience teaches that it exceeds that which can ever be exercised immediately by judicial institutions, because it is the office of the police not only to arrest crime in its growth, but to prevent offences taking root in the social soil.

But in Buenos Ayres the police fail alike to prevent or to punish crime. Important of course, is it to the well being of society to check the opening path of crime, to block up the entrance of that wide way which leads to destruction; but how can we hope for this when even to cut short the career of the most hardened criminal by making him an example of the terrible vengeance of the law is utterly out of the question. Crime must augment in this city with such a police organization as at present exists; the permanent diminution of crime is only attainable by the removal of its primary causes, by preventive and executive justice, and these are almost unknown in Buenos Ayres.

When we consider the wretched police force of B. Ayres, the wretched prisons, the still more wretched code of criminal procedure existing in this Republic, we confess to the conviction that the people of this country are the quietest and most peaceably disposed on the face of the globe!

We cannot bring ourselves to publish a list of all the unpunished assassinations which have been perpetrated in this city only since the beginning of the year; it would shock our readers, it would do more, it would disturb all confidence in the future of the country, and make us nervous as to the security for life in the community.

President Sarmiento, Governor Castro, and all our Congressmen and all our Provincial legislators, are all a hapless set of bunglers; with all their sessions, edicts, decrees and laws, they cannot strike at the root of the evil. CRIME IS NOT PUNISHED in this country, and the assassin mocks our institutions and our laws. It is a fact, and who dare deny it?

The folly of the framers of the Argentine constitution is now apparent, the best and greatest mainstay of society—*the punishment of crime*—is wanting and far better to have left the land a colony of Spain, than create a Republic where the real freedom is for the cut-throat and the assassin.

With pain and humiliation we advert to this theme; it is the real black spot on the country. Disguise our sentiments as we will, when we read of such cases as the assassination of the unfortunate Casares, cut off in the very flower of life, and by a youthful felon of only 17 summers, who, when caught and sent to the Policia, is allowed to escape, our better feelings get the master of us, and honest indignation must find vent.

Curiosity or adventure may induce strangers to visit the Plate: they sojourn in our cities, study our laws and our constitution; both are calculated at first sight to command esteem and respect. Argentines claim a literature, a trade, and a country of their own. The deeds of their ancestors emblazon the pages of their history, and the framework of their Government is based upon principles which every honest man must revere. But take up the criminal calendar for the past year, the morning papers of the day, visit the Cabildo, where even in the felon's cell crime is perpetrated; the Penitentiary and the Policia, where prisoners are caught, charged, and allowed to escape; the criminal courts, where trials by 'viva voce' are unknown; inspect and scrutinise these haunts of bungling justice, unpunished crime, and the impartial observer must confess to the fact, that the Argentine Republic, with its great men, constitution, statute laws, civil code, and vaunted go-a-headism, is one mighty, magnificent humbug!

MUNICIPAL BUDGET FOR 1870.

The budget of expenses of the Municipality now awaiting the ratification of the Provincial Legislature amounts to 26¼ millions, or in English money about £210,000, being a little over £1 per head of the population. Unfortunately the balance is on the wrong side of the book, there being a deficit of 11¼ millions, or nearly 42 per cent.; this is one of the largest deficits ever known in the budget of any country or city that pays even the most trifling attention to figures. In fact we should almost fear the bottom was out of the tub did we not know that the people of Buenos Ayres, who live in such luxurious extravagance, are always able to pay for the ordinary expenses of a civilized community.

The ways and means are calculated as follows—

Lottery	3	millions
Markets	1	"
Killing-grounds	1½	"
Sereno tax	2½	"
Gas tax	2	"
Patentes	2	"
Lands and rentals	1½	"
Contribucion Directa	1	"
Sundries	½	"
	15	millions.

In order to make good the deficit of 11¼ millions it would be necessary to double all the above taxes, as the revenue from the Lottery can hardly be increased. Many people, no doubt, will grumble at any additional taxes, more especially as the city is in so abandoned and disgraceful a condition. Nevertheless we should be glad to see the municipal revenue at 100 millions, if the proceeds were faithfully expended for the comfort, convenience, and health of the city. We shall, therefore, feel bound to support our present Lord Mayor, the upright and well-meaning Dr. Roque Perez, in whatever measures he proposes for an improvement on the present wretched system, which is mainly owing to the insolvency and impecuniosity of the Municipal treasury.

The items of expenditure for 1870 are put down as follows—

Street paving	3½	milions.
Scavengers' carts	2	"
Street lighting	2½	"
Prisons and poor house	1	"
Public works	3	"
Serenos	2¼	"
Hospitals and Asylum	2½	"
Public Schools	2	"
Lottery and cemeteries	1	"
Public officials	1	"
Sundries	1	"
Old Debts	1½	"
Loan from Bank	3	"
Total	26¼	millions.

If we deduct the last two items we find the actual estimate of current expenditure to be 21¾ millions. We shall take occasion another time to examine many of the items, but at present content ourself with remarking that the sum of two millions devoted to schools would be much better employed if given for an increase of the police force and a place for the detention of malefactors. Public schools are very well in their way, but the first requirement in a civilized community is protection for life and property, and we can hardly flatter ourselves to possess this yet awhile. We throw out the suggestion for the consideration of Dr. Roque Perez, knowing that he will give it the attention it may be worth; and we shall take the liberty, to-morrow and afterwards, to trouble him with some practical hints about the primary necessities of the city, before incurring such luxurious expenses as free schools in a town so abundantly supplied with private academies.

PROVICIAL BANK

MONTHLY STATEMENT.

The monthly statement of the Provincial Bank ending the 30th October 1869, has been just published and gives the following results, we give a comparative statement with the previous month—

Capital in public lands Sept.	$34,189,463
" " " Oct.	34,189,463

Not much doing in the public land department since the returns are the same—

Deposits specie at interest September	$10,082,467 pats.
Deposits specie at interest October	9,961,977
Deposits paper at interest September	$358,177,802 mte.
Deposits paper at interest October	340,089,361

This shews what we have already stated that money this month is in better demand.

Specie bills in circulation in October	3,111,940
Specie bills in circulation in September	2,989,170
Due by Nat. Government, law of 1867, in September	$1,510,282

The state of the Oficina de Cambios is bigly flattering.

IMPORTANT FROM RIO.

(From our Special Correspondent.)

Rio de Janeiro,
November 9, 1869.

The Liverpool, Brazil, and River Plate steamer Halley arrived here on the evening of the 7th, after a 30 days' passage from Liverpool. All her news has been anticipated. Also the Genoa and Marseilles Company's steamer Poitou yesterday morning.

We were rather startled on the morning of the 5th by an account in the "Jornal" of a most atrocious murder perpetrated at Raiz da Serra, a short distance from the station of that name on the Petropolis Railway. It appears that a Portuguese, by name José Maria Vieira Ramalho, left this city for Estrella [a small place a few miles up the bay], with the intention of buying up old casks to sell again here to the coopers. By the morning of the 5th he had travelled up as far as Raiz da Serra, where he went to the ticket office, and asked how much it would cost him to get down to the city. The clerks having told him, he said he could not afford it, and would rather walk back to Estrella, 12 miles from where he would take a boat. Several bystanders told him he was very foolish to walk so far to save the small difference in cost. He, however, started on his journey, and called at a "venda" on the road, where he bought some bread. In paying for it he pulled out some money, which a Paraguayan, who was in the "venda" at the time, saw. On Ramalho leaving, the Paraguayan said he was going part of the way and would accompany him. On getting out of sight, the Paraguayan stabbed Ramalho in six places, three of the wounds being through the heart, which of course killed him instantaneously. Some one happening to come up immediately afterwards the alarm was given, and about half an hour after the deed was done the murderer was caught with the money still in his possession, which amounted to four milreis!!!

On the 6th Charles Edward Louis Stewart was tried for forgery. He says he is a native of Naples, 39 years of age and unmarried, that he came here as agent for several of the first newspapers in the United States, to set up a 'typographia' on a very large scale, and edit a daily newspaper, also had been on the staff of the ex-President of the United States, brought with him various sums of money in gold and letters of credit. The signatures of the latter were certified by the American Consul here, and he discounted several (to a large amount) at the house of Wright and Co., which were in due time returned from New York and declared to be false. Stewart of course was immediately put into prison, where he has been close upon a year. In defence, he said he had not forged the signatures, but had received the letters from the editor of the "Tribune" in recompense for his services and costs of correspondence, &c., &c.

He was defended by Dr Joaquim José Pallvares.

After a long and severe debate, the jury retired about 20 minutes. On their return, the verdict was—

Six years, with hard labour, and 20 per cent. fine on money obtained, and costs.

Both the Judge and his advocate appealed against this decision.

On the evening of the 6th Chiarini's Circus was opened for the first time to the public of Rio. The crush to get in was something frightful, never before have the 'Fluminenses' flocked in such numbers to any spectacle in this city. The inside was literally jammed with people, while hundreds were outside swaying to and fro trying to get in, but it was useless: the Circus, spacious as it is, would not hold them all. By the bye I did not tell you they are not performing in their own Circus in Campo Santa Anna, but in the Guarda Velha, an iron structure built by the enterprising manager and owner of Circo Olimpico, Mr. Bartholomew, who has for years applied the profits of his exhibitions to this purpose, and when finished it will be one of the first buildings in Rio de Janeyro.

On the night of the 4th H. I. M. the Empress had a violent attack of colic at 6 a.m. on the 5th, not much improved; 8 p.m. 5th, improving; at 1 a.m. 6th, vomiting recommenced; at 4 a.m. felt a little better, the vomiting having ceased; at 7 a.m. slept a little; at half past 10 p.m. her state was anything but satisfactory; at 8·30 p.m., on the th, scarcely any improvement.

H. I. M. the Emperor attended mass at the Imperial Chapel at 10 o'clock a.m., being the anniversary of the death of the Empress's august father (8th November).

The "Leon Crespo" is raised and discharging cargo at Lage's Island.

Sovereigns, 12$900.

THE SWISS COLONIES.

PETITION TO PRESIDENT SARMIENTO.

May it please Your Excellency.

The undersigned avail themselves of the right of petition and such guarantees as are accorded us by the Constitution of the Argentine Republic, whose destinies are confided to your hands. We have, therefore, the honor to present ourselves before you and manifest the lamentable and insecure condition wherein we are placed by the present Government of Santa Fé. Some of us are natives of the country, others foreigners invited hither by the advantages so much boasted of and held out towards emigrants from Europe: all of us alike are exposed to the loss of our lives and property by the mismanagement of the Santa Fé Government and the want of elements at its command to repress crimes which are every day increasing, putting our lives and interests in jeopardy.

The horrible tragedies recently enacted here, and the form of justice dispensed to us by the local Government are a striking proof of all this. The Santa Fé Goverment is at present powerless to protect us, or to ward off the evils hanging over our heads and threatening us with wholesale destruction.

Urgent measures are instantly called for, unless the Nat. Government is content to see the ruin of our colonies and a stop put to emigration. These flourishing colonies, which were rapidly converting the Province of Santa Fé into blooming meadows and cornfields, must disappear and leave in their place a howling wilderness stained with the blackest crimes.

We, therefore, humbly pray Your Excellency to use such measures as the Constitution places within your reach to put a stop to these crying evils and prevent a calamity to this Province and to the Republic, which must ensue if its industry and progress are allowed to be trampled under foot.

May God preserve Your Excellency many years.

EDITOR'S TABLE.

The Kepler, so long and anxiously expected, arrived in Montevideo yesterday morning; she may be expected here to-day.

The City of Rio Janeiro sailed yesterday with a full cargo and considerable number of passengers. She will get home just in time for Christmas with all its attendant festivities.

The 'Tribuna' received a special telegraphic despatch on Tuesday night from Rosario to the effect, that a revolution was on the point of breaking out in Santiago del Estero; but it had been discovered in time and frustrated. Many persons are in custody for supposed complicity in it; the despatch says, that in Cordova it is believed to be a ruse of Taboada's to frighten the people, and prevent them from voting at the National elections.

We regret to hear that the assassin of young Casares, as also the man who murdered his wife's paramour in Calle Parana, are still at large. The escape of poor Casares's murderer is most disgraceful for the police authorities. It is clear that the subordinate officials of this force are either utterly incompetent or shamefully venal, we greatly fear the latter. If Mr. O'Gorman, who is perfectly competent to do it, does not soon apply the reforming axe to his department when the apprehension of murderers is concerned, we most certainly will have an outbreak of public indignation that will sweep away those officials to whom the lives of the citizens appear to be of as much account as those of sheep. The escape of the murderer of young Casares, calls for the instant and energetic interference of the Superior Government; there is a 'reign of terror existing in the city that must be put a stop to; at present no man's life is safe, or worth a minutes purchase if he happen to have secret enemies.

We refer in another column to the somewhat desperate state of the Municipal finances. How the "wind is to be raised" to enable us to enjoy the innumerable reforms promised in civic matters is a mystery at present only known to Providence, and perhaps to Lord Mayor Dr. Roque Perez.

It is with pleasure we announce the convalescence of Mr. Souza, second manager of the Mauá Bank. This gentleman has been confined to bed for some time by a severe attack, but is now, happily, able to go about.

A very melancholy accident occurred last week at Frayle Muerto: Mr. Mendoza, who it seems has a steam plough at work, put some inexperienced men to manage the machine; of course the result was not to be wondered at, the boiler burst, and the steam plough was blown clean over the chacra. We regret to say that one man was killed and three are so badly wounded that they are not expected to survive,

The Cordova Exhibition Committee has remitted by the Douro £6,200 to pay for the exhibition building. This looks like business; quere, what about the exhibition building for this city.

In consequence of the frequent assaults and murders committed at night time in the Plaza Parque, the police have received orders to shut the gates at 11 o'clock each night. This looks very like shutting the stable after the horse is gone.

The Poitou has brought rather more favourable news about our staples in France. A leading shipping house has received by her account sales of 200 bales of wool sold at public auction; the sale went off well, and 'mirabilé dictu' the wool covered all expenses.

The fall in the waters of the Parana has stranded a number of vessels; there are no less than nine fine steamers and sailing craft aground at various points, amongst them the Edwd. Everett and Guarani. The steamer Salto was aground at Taraguate, but got off by unloading some of her cargo.

The cost of taking the census in the city of Buenos Ayres amounted to 13,191 patacons, not a very large amount; there were 291 men employed to go from house to house to take the names, &c., 34 overseers, and 1 commissioner. The overseers pocketed 5,139 fuertes, while those who bore the heat and burden of the day, the 'empadronadores,' only received $6852; the disproportion is great.

The members of the Court-martial convened for the trial of Sergeant-Major Loyola heard Mass yesterday morning in the College Church previous to opening their proceedings. The assemblage of veteran officers, all in 'grand tenue,' epauletted and decorated, formed a brilliant and imposing scene. There was a considerable congregation present, attracted by the novelty of the spectacle.

The President of the Rural Society, Sr. Don José Martinez de Hoz, accompanied by a select committee, intend visiting to-day the splendid estancia Santa Catalina, with the view of examining its fitness for being converted into an Agricultural Institute. It appears the site inspected lately by the committee at Chivilcoy did not quite come up to their expectations.

We are glad to see that Mr. Billinghurst has carried his point with the Government, and that his tramway will be exempted from the tolls sought to be imposed on it by the Flores road commissioners.

A desperate row took place on Tuesday evening in the American Church, in Calle Cangallo. The preacher, a pervert from the Roman Catholic Church, gradually became so absurd and offensive in his remarks on all doctrines that differed from those of his newly adopted sect, that an Englishman, who happened to be present, rose up, and in a loud voice told the follower of Wesley, that he was propagating falsehoods, and that he knew it. A scrimmage at once ensued, in which several 'enthusiasts' fared badly at the hands of our English friend, whose proportions more than qualify him for the Life Guards. It was found impossible to renew the edifying service, so the doors were closed, and our friend walked home master of the situation. While on this subject, we may mention that a South American Mission is being organised in Utah by Brigham Young, who wishes to evangelise us on polygamous principles. We have no doubt there will be many converts found amongst the motley population of this city. It is said the Gran Chaco is to be handed over to Brigham to found a new city of the Saints.

The number of Italians daily arriving in this country is truly surprising. The Poitou brought 560, and 340 arrived in other vessels within the last few days. The Bianca Pertica, which arrived yesterday, brought a large number, and the Golden Horn is expected to bring 700. It would be better for the country if we could attract some German and English peasants to our shores, for though the Italian is hard working enough, he is not as good a settler for a new country as the more vigorous Anglo-Saxon or Teuton.

Roque Perez is the man of the day. His power is now supreme, and yet he is not a happy man. The impecuniosity of the Municipal Board grieves him: pantanos have to be filled, streets paved, and the city beautified; but there is not a dollar in the municipal chest, and householders have taken such fright at the probabilities of increased taxation, that house auctions are the order of the day; every one wants to sell out in time. Of course, the result is, that house property is tumbling. We have a very high esteem for Lord Mayor Perez; but it certainly has not been enhanced by the knowledge that Dr. Roque is getting up in his own private house in Calle Moreno, next door to the "República" Office a museum, with possibly the vain idea of rivalling the "Standard" museum. The Perez museum possesses some valuable coins, 'tis true, but the whole thing can be seen in five minutes, whilst the "Standard" museum cannot be done under four and a half hours. Our trophies of the war are not the work of a day or an hour, but the persistent effort of years. Take the old Scotchman's pipe, or the melted bottle found in a subscriber's pocket in Paraná,—the tail of the Gran Chaco rattlesnake, or the samples of Correntino woods,—take any one of these, we say, and it will eclipse, in point of interest and associations, all the odds and ends, scraps and nick-nacks which our worthy Lord Mayor can boast of. We advert to the matter merely in consequence of some invidious comparisons.

If any ship captain has lost a boat answering the following dimensions say 26 feet long, painted white inside and out, double banked, eight oars with rullock holes covered with brass, he can hear of her by applying at the 'Standard' office.

The only Concordance of Shakespeare in the River Plate is now in our office, and subscribers and others who may wish to avail themselves of this invaluable work, can always have it at their disposal for reference, but under no circumstance can the book be removed, we mention the matter as it once happened to a friend, that he was for two years looking for a quotation from Shakespeare, now he requires but two minutes to find even the most obsolete line.

We learn from a gentleman who came down from Rosario in the Doña Francisca steamer, of her arrival at Colonia, in fifteen hours and a quarter under steam, from Rosario. This fine steamer was sunk in Asuncion on the 6th of last February by striking one of the *cheveaux de-frise* placed in the channel by Lopez. She remained submerged till the 15th of October last past, when Captain T. Howard, of Montevideo, succeeded in raising her, after two weeks' labour, during which time he put preventer plates over three large holes which he found in the steamer's bottom. She is now under under the command of Capt. Howard, and will probably proceed to Rio for repairs.

As appears by a letter from Mons. Marechal, published in the 'Nacional' of Tuesday, Gomez Pereira fled from the Hotel la Paix, leaving his bill unpaid, and saying he would return in a few days.

In connection with the leading article which appeared in our yesterday's issue, we may state that President Sarmiento, has actually written to M. Lesseps, who it appears is an intimate and particular friend of his, asking him to send out some scientific agent to report on the, feasibility of a canal to the outer roads; this for us would be more beneficial than the Suez Canal; what if M. Lesseps himself should come bringing some of the powerful machinery lying idle at Port Said! The Ptolomies were the first to plan the Suez Canal, Sarmiento is the first to plan the outer roads canal, arcades ambo, Moors both.

Donizetti's master piece, Lucia, will soon be produced at the Opera House, for the first time since the departure of Madame Lablache. Madlle Siebs takes the part of the unhappy Lucy, a character in which she ought to achieve a brilliant success judging from her past efforts.

The Municipality, from the most praiseworthy motives of economy, avail themselves of the present moonlight nights to avoid lighting the street lamps. Luna, like most of her charming sex, is slightly addicted to fickleness, and though she may smile at 9 o'clock p.m., may be in a very different humour at midnight. Meantime the city is condemned to the horrors of "outer darkness and gnashing of teeth," and the robber and assassin have it all their own way. The night before last it was only here and there a street lamp was to be seen alight.

A project has been presented to Government for establishing a swimming

bath near the mole, and it is thought it will meet with a favourable reception in official quarters. We have often been astonished why an establishment of this kind, necessitating only a small outlay for its initiation, has not before been started in this city. The speculation would, in our opinion, pay enormously. There are so few places where a good "header" can be conveniently had, that every one would patronise a plunge bath, if properly and economically managed.

The Royal mail steamer City of Rio sailed yesterday for Europe with a large cargo, mails, and an unusually large number of passengers for this season of the year. Correspondence posted this evening, under cover to J. R. Schwartz, the Montevidean agent, will be duly forwarded. She will, in all probability, reach home in time for letters to be answered by the French mail in December.

All the employés in the Home Office attended by permission the funeral of young Casares, so brutally murdered in the Plaza Parque.

The members of the Society of St. Vincent de Paul, in this city, are about founding in this city a school for instructing in the various branches of trade the children of the poorer classes. There can be no doubt that such an institution would be of great benefit here; a similar one has produced the best results in Chile, and we wish the present project every success.

The sittings of the Provincial Legislature seem likely to be indefinitely prolonged. Each night it is difficult to form a 'house,' the majority of honorable members being absent on urgent private affairs.' Meantime, the voting of supplies for the ensuing year on which so much depends, is brought to a standstill.

In our Rio correspondence, in another column, it will be seen that the individual who represented himself in that city as the agent for the leading New York press, and who had announced his intention of coming to Buenos Ayres, with a capital of £10,000, to start a daily paper, has been convicted on a charge of swindling; he had forged bills to a large amount on several leading mercantile houses in New York.

We are happy to perceive that Dr Luis Varela, Under Secretary for the Interior, has completely recovered from his late indisposition, and has resumed his official duties.

The members of the Buenos Ayres Exhibition Commission were convened to a private meeting last night at the house of Don Hector Varela, in Calle Suipacha.

The Franco-Argentine Theatre will reopen next week with a performance for the benefit of the popular actor, Mollard.

A subscriber who was passing at the time informs us that the scene at the American Church on Tuesday night to which we have already referred, was not unlike those witnessed in London during the sermons of Father Ignatius.

MONTEVIDEO.

Tuesday.

The Athletic Sports are anxiously looked forward to, as the English ladies here have come forward most generously in collecting a handsome sum for the purpose of purchasing a challenge cup to be competed for at the next meeting. It is intended for the 440 yards flat race, and is only open to residents of Montevideo, and has to be won twice at two consecutive meetings.

There is nothing new of any importance down here. Ristori and Co. left for Rio in the Douro on Monday. She took amazingly well, especially so in 'Maria Antoniéta,' which was given four or five times. The house each time was crowded to excess.

All the English families have left town and gone to their country residences. Bathing has commenced with great spirit. The English Club is progressing most favourably; the Bolsa Saloon and Cranwell's Botica are quite deserted every evening, as the frequenters of those places are now always to be seen at the Club, either conversing, reading, playing cards or billiards, &c.

Business is excessively dull and will continue so until the English houses discontinue selling their goods in auction at ruinous prices.

MAIZE GROWING IN BUENOS AYRES.

Mr. John Hannah has written the following letter to the "Anales Rurales," which we translate:—

"It may be well to call general attention to the subject of maize and show how a much larger crop may be raised than we are accustomed to see in this country. Last year an Englishman who had been some time in the United States, came to my place and I induced him to plant a cuadra (4 acres) after the American fashion: so abundant was the yield of maize that all my neighbors were astonished and the rumors as to the amount actually reaped were at first deemed fabulous, although perfectly true. I got two experienced young men, Messrs, Hanney and Langley to measure the grain produced by this field, and in comparing it with another plantation of maize sown in the manner common in Buenos Ayres, I found the yield of the former, per cuadra, was more than double the latter. The chain we used in measuring the land was lent me by D. Manual Eguia, surveyor, and the returns I allude to have been examined and verified by another scientific gentleman. The yield was between 97 and 100 fanegas per cuadra, which may appear almost incredible, but perhaps the reason of so wonderful a crop was the rainy season during the spring previous.

I may observe that I gave the ground a double-ploughing with an American plough, and afterwards harrowed it. I then made the furrows 5 cuartas (3 feet 6 inches) apart, and made the cross furrows at a similar distance, so that the Maize came up just like a peach plantation, but somewhat closer. In each hole I put about four grains of maize and then covered it lightly with the hand or foot. When the plants were sufficiently grown I weeded and grubbed with an ordinary plough, for want of a more suitable implement, and afterwards heaped the clay around the young plants as we do with potatoes.

As maize does not require deep sowing, the Americans have a special instrument for making furrows: it is a stick about 15 feet long and will make 4 or 5 furrows at once, all at equal distances: the teeth are almost perpendicular, inclining slightly forwards, sharp pointed but thicker as they go up, so as to make the furrow pretty wide: they are made of hard wood.

JOHN HANNAH.

BARRACAS AL NORTE.

To the Editors of the *Standard*.

The undersigned residents of Barracas beg to thank you for your kind attention as regards everything about this locality, and to request you to reproduce the following able article from the *Courrier de la Plata*.

There is hardly a part of the Province more neglected than Barracas al Norte. On July 8th 1868 the principal neighbors had a meeting on the occasion of a banquet to M. Roqueand, when the following improvements were resolved on:

To light the streets.
To build a church and school.
To pave the streets.
To form a Municipal council.

It is hardly credible that this frequented suburb had neither lighting, paving, school, nor municipality. In wet weather the houses were inaccessible, owing to lagoons of mud: at night no one could venture out, there being no lights; in dry weather the dust was insufferable. Such was the state of Barracas on the day of the banquet, and such it is to-day. In appointing Mr. Roqueand as delegate for the neighborhood the residents had every confidence in him, and they have not been disappointed. The following works are now been carried out.

1. A tramway from town to Barracas Bridge.
2. Paving along the Calle Larga, 50 ft. wide.
3. Water supply to be complete in 3 months.
4. Lighting by gas.

On Sept. 17th a committee was named to select plans for a school, juzgado, church, and municipal house. Thus under the new committee the district will go ahead, all the commissioners being residents of the locality and active men. We have to give the highest praise to Governor Castro and Mr. Roqueand for these improvements, to the realization of which the *Courrier de la Plata* and *Standard* have also contributed.

(The signatures follow).

THE AUSTRALIAN MEAT QUESTION.

Mr. E. B. Neill supplements his October meat report with the following quotation of the 'Times' of Thursday, October the 7th:—

"Yesterday an interesting meeting was held at the Edmonton Institute, with the object of practically testing the Australian preserved meat. The test applied was that of giving the wives of artisans instructions how to prepare a dinner, and then supplying them with the means of publicly cooking it. The meat, salted and boneless mutton and beef, is "prime," looks well and eats well. About 180 artisans and their wives sat down, Rev. A. Hall and the committee. The women received their instructions from Mr. D. Tallerman, the manager of the only agency in England, and they set meat before their husbands, not in joints, but in Irish stew, meat dumplings, meat and potatoes, mince-meat pies, and in other forms whereby the salt of the meat was absorbed.

Mr. Tallerman cooked, if the term might be used, after the usual fashion of London wives, and showed that they threw away in the water the best part of the meat by cooking it alone. He pointed out the great saving the artisans' pockets would experience if this meat, cooked with vegetables, and so forming a pleasant and wholesome dish, were adopted by the operative classes of this country, and he added assistance would at the same time be given to Australia in finding a market for her flocks. He mentioned that in Norton Folgate 'penny dinners' were given of this meat daily, and the prejudice previously existing among the classes in that district against all preserved meat was rapidly disappearing. A pleasant discussion followed, and the working men, by a vote, pledged themselves to use the Australian meat, whether they at first liked it or not, for a period of six weeks, as a portion of their meat food.

The Food Committee of the Kensington Museum, London, have placed copies of their elaborate and most instructive report on the relative nutritive constituents of nearly all the eatable substances in the world, as illustrated in their extraordinary collection at the disposal of Mr. E. B. Niell, with a view to being transmitted to his Government at Montevideo, whose interest in this vital question he takes such unceasing pains to manifest in England.

ON 'CHANGE.

November 17, 1869.

Ounces	400
Sovereigns	122½
Patacons	25
National Bonds	60⅝

There was a little more business done in Bonds to-day. The sales cash 71,400, opened at 60⅜, and closed at 60½; one party sold pretty freely to-day, who for some time back has been sustaining the market; within the last two days this broker has sold some two hundred thousand Bonds "efectivos." There is very little speculation going on in Bonds at present; one or two new brokers have bought freely, but outsiders have nothing whatever to do with the market.

The demand for money is beginning to be felt; at the Bank the applications for discount show an immense increase. The paper money on hand at the end of the month, which amounted to 29 millions, has been reduced to twenty-one millions. Barraqueros and others, however find as much money as they require at 1 per cent. per month, and first class city paper is done for short periods at ⅞. There are very large sums locked up in Bonds in the way of call loans by foreign houses; these sums will now probably be called in, in order to despatch merchandize before the new tariff comes into operation. The export tax on wool this year will be only 4 per cent. on a valuation of 1.20 per ar., which will be equal to a valuation of $30 m/c per ar. The duties on wines, &c., will be increased to 30 per cent., and the valuation also augmented.

The Japanese cargo arrived per Poitou for Mr. Ebbinghaus is perhaps the most valuable that has ever been consigned to this port. Mr. E. purchased the goods in Japan, we believe at Yokohama, whence they came by steamer to Marseilles and were there embarked in the Poitou. Yesterday there were 50 waggons discharging them at the store formerly belonging to Olazabal, in Calle Victoria, where they will be placed on exhibition as a Fancy Fair for one month before being brought to the hammer: a band of music will attend each evening, and the place will be sumptuously fitted up. Mr. Ebbinghaus was in treaty for the Coliseum, but could not get it for longer than a week, which would not suit his purpose. The goods are said to be very "recherchés": we hear of a flower-pot worth 20,000$, and numberless articles of great taste.

Exchange was done to-day for the City of Rio at 49, and on France at 5,17

The City of Rio took a full cargo, and a good number of passengers, besides £60,000 stg. in gold.

The Kepler has at last arrived in Montovideo and will be up in the morning. she brings no less than fifty passengers, some valuable horses for Messrs. Cobo & Tomkinson, also several cases for the British Hospital Bazaar. The Kepler will sail from here for Antwerp on the 25th inst., she has already over one thousand tons of cargo engaged.

M. Bottini has applied to the Montevidean Government for permission to erect telegraph wires between Montevideo and Rio Grande, as the scheme is at present in the hands of parties who purpose making a through line from Montevideo to Rio, having the countenance of the Brazilian Government, it is not probable that the Montevidean Government will entertain the present proposal.

The great business of the day is in wools. At the Plaza Once there are about 60,000 arr, in the market and in the Plaza Constitution about 25,000. The sales show an upward tendency in prices. The market for fine wools is very firm, and all fine well-conditioned wools meet with ready sale at present quotations.

The sales in the North Plaza were as follows—

MEDICINES THAT LENGTHEN LIFE.—The average length of human life would be greatly extended if the present large use of Bristol's Sarsaparilla could be made universal or diseases arising from impure blood and scrofulous humors. Medicines that have the positive property of curing disease, and the negative quality of being perfectly harmless, are rare, Bristol's Sarsaparilla is one of them. It would be almost impossible to produce a case of scrofula, or any other ulcerous or eruptive disorder, that could not be controlled by this all-healing vegetable alterative, and equally impossible to name an instance, in which it has operated deleteriously on the feeblest of patients.

"A Handbook of the River Plate," by Messrs. M. G. and E. T. Mulhall, the editors of the "Buenos Ayres Standard," gives the most practical and recent account yet furnished of those countries, comprising Buenos Ayres, the Upper Provinces, Banda Oriental, and Paraguay. It contains particulars of the various land grants for European Emigrants, the projects and concessions for public works, the progress and prospects of mining industry, statistics of the foreign population, Customs' duties, moneys, weights, &c., and instructions to emigrants, together with all the leading points most useful to persons contemplating either a business visit or a permanent settlement in these regions.—*Times* Money Article, June 7th.

We confess that the "Handbook of the River Plate" is the best book of this kind ever written about these countries.—*Deutsche Zeitung.*

"Handbook of the River Plate." By M. G. and E. T. Mulhall.—To those who purpose emigrating to the countries lying on the River Plate this book will be found of great value. It is the work of a citizen of Buenos Ayres, and appears to be quite full and trustworthy. The Argentine Republic, Republic of Uruguay, and Paraguay are described, their chief cities, agricultural and other resources, stated, and the chances for immigrants fairly told. The book throughout contains much information of importance. In spite of domestic and foreign wars, it is pleasant to learn that the number of immigrants into the Argentine Confederation increased from 4,658 in 1858 to 23,500 in 1867. The material wealth of the countries is also increasing with rapidity, except, probably, in Paraguay, where the war is waging. Altogether this book gives us a better idea of the River Plate Republics than any other recent publication does.—*New York Herald.*

Every one who has turned over the pages of this work, will join us in appreciating its importance for the advancement of the country. Nothing has escaped the intelligent research of the authors.—*Nacion Argentina.*

Everything relating to the country, and that can satisfy the enthusiasm of the merchant, farmer, politician, or philosopher, is to be found in this work, which we hesitate not to recommend as one of the best that ever appeared in this country, and which, considering the present industrial and intellectual movement, is indispensable, even though it has to be translated.—*La Republica.*

The Messrs. Mulhall have rendered a signal service to these countries by a labor like the present, which will make the River Plate better known abroad.—*La Tribuna* (Montevideo.)

President Sarmiento has taken 100 copies, and sent 50 to the Argentine Minister at Washington, for some of the principal public libraries in the United States.

We have gone through this elaborate compilation with great interest, and certainly whoever desire to make themselves acquainted with Argentine history, whether ancient or modern, have only to study this admirable guide. The amount of information collected is something wonderful. It could only have been accomplished by great labour and at a heavy cost, and, we trust, the public spirit evinced by Messrs. Mulhall will be amply rewarded. To those who contemplate a visit to the River Plate, or a settlement in Argentine territory, the details given in this "Handbook" are invaluable.—*London and River Plate Mail.*

I beg you will put down the Government of Entre Rios for 200 copies, and myself for 100, to be distributed gratis among reading-rooms in Europe.—*Letter from General Urquiza.*

CHEAP EDITION.
(Price 2s 6d.)

A cheap edition, comprising the whole of Section A. and other chapters, with an appendix (the laws of the country) making in all a book of 330 pages, is offered at the above price.

The materials of which it treats, and the known talent of the Authors, are a sufficient guarantee to me of how valuable this book will be to the country.—*Letter from the Prime Minister.*

[*From the North British Daily Mail.*]

"This is a work which, from the copiousness of its details, and the methodical arrangement of its varied contents, should satisfy all commercial enquirers about the River Plate. A Handbook of the usual dimensions and scope would, from its meagreness, have proved quite inadequate to the requirements of the case. The intelligent authors of the present work have given to the world two considerable volumes, the first one of which is an imperial octavo volume of 352 pages. Their principal object has been to give an exact picture of the foreign enterprise and industry in the River Plate. In executing this task they naturally should excite by what they have done the attention, not of intending emigrants only, but of commercial people, capitalists, manufacturers, shippers, shipowners, and others, who may be on the look-out for information respecting new fields of commercial enterprise, of investment, and of traffic. The conclusion, or approaching conclusion, of the Paraguayan war, and the commencement of President Sarmiento's enlightened administration, is a most opportune period for rendering the great outer world familiar with the condition of industrial affairs within the River Plate Republics, in the hope of drawing that attention to them which such great countries so well merit because of their boundless resources. Under a progressive and peaceful Administration, all parties may look forward to a sort of explosions of improvement, which will be all the more vigorous that it has been arrested by war for close on five years, in the form of new and varied industrial enterprise and a rapid increase of trade and commerce. Foreign labour and capital will do more at this crisis than the same numerical amount of either in native hands. The La Plata peoples are soured by their mutual strifes, and to some extent demoralised by war, whereas strangers will enter fresh on the territory for the ends of peaceful industry, and may follow these without distraction. This Handbook contains, first, a notice in detail of the Argentine Republic: of its colonies, of agriculture, its railways, history, public men, &c.; secondly, of the city of Buenos Ayres; its buildings, institutions, and port; thirdly, the camps of Buenos Ayres comprising the various partidos, and every estancia or settlement in the province. The foreign population, with their different nationalities, their social influence severally and their commercial pursuits, are explained in considerable details. The colonisation of Patagonia, with the Welch Colony in the Southern region, is described, and some practical advice given to emigrants. The Messrs. Mulhall have done in this a very patriotic piece of work, and the commercial and industrial worlds, equally with the River Plate Republics are greatly their debtors."

The Company insures against loss or Damage by Fire Private Dwelling-Houses Goods Deposited in Specific Warehouses of Ston or Brick, &c., &c.; and also issues "Floating Policies," extending to the Custom-House and all or any of the Private and Bonded Stores.
The whole advantages which can possibly be contemplated by those desiring to effect Fire Insurances, may be resolved into the following:
1st. Security
2nd. Honor and liberality on the part of the Company, in whose hands they place their interest; and
3rd. The purchase of these advantages at a moderate rate.
It will be found that all these are presented by this Company to the Public in an eminent degree)
The Company's large Capital, under the immediate management of the Directors of this Establishment, affords perfect security to the Assured, while it may confidently assert, from the Constitution of the Board of Direction, from the character of its present Members, and from the qualifications which will be deemed indispensable in their successors, that the highest honor and liberality will ever characterize all its transactions.
It has been the object of the Directors, in their minor arrangements, to afford every possible facility to those effecting Assurances with the Alliance, and the undersigned hold a Power of Attorney enabling them to settle at once any Losses that may occur from Fire, Lightning, or Explosions of Gas in Buildings, on or in which this Company has granted Assurances.

PHARMACEUTICAL HALL

PALMAM QUI MERUIT FERAT.

PENEDOS VEGETABLE SYRUP.
THE MOST CERTAIN AND SPEEDY REMEDY EVER DISCOVERED FOR ALL DISORDERS OF THE CHEST,
ASTHMA AND CONSUMPTION.

No other diseases sweep away so many thousands as ASTHMA and CONSUMPTION, and not because of any want of means of checking them, on their first approach if those attacked would adopt proper remedies early, but, unfortunately, these are neglected, and recourse is not had until the disease is firmly established in the Lungs, from whence (until lately) Physicians had not discovered any means of dislodging it. Professor Penedo's Syrup supplies now that DESIDERATUM to sufferers, as the rapidly extending fame of this Preparation testifies it.

COLDS, PAIN IN THE CHEST, SHORTNESS OF BREATH, PHLEGM, AND INFLUENZA.

A difficulty of breathing, or a sense of tightness or pain in THE CHEST after exertion, a cough or an expectoration of phlegm, however slight at first, will surely prove the germ from which one or other fatal diseases will take their rise, if not early removed, in such cases,

PENEDO'S VEGETABLE SYRUP

must be taken three times a-day, as directed, or oftener, according to the urgency of the symptoms, and this will be found sufficient for the cure of all recent affections of the Lungs.

COUGHS,

This severe and most dangerous disease very frequently becomes most troublesome, which, if not ending in Consumption or Asthma, proves most distressing and weakening up to the patient.

PENEDO'S VEGETABLE SYRUP

should be taken until it is entirely removed, which it will speedily do if taken regularly.

WEAKNESS OF THE VOICE AND HOARSENESS.

In all cases where the diseases have occurred suddenly from Colds, exertion of the Voice, &c.

PENEDO'S VEGETAALE SYRUP

has been most successful in effecting a radical cure in cases which have existed many months.

PENEDO'S VEGETABLE SYRUP

is of the highest utility in all diseases of the Chest and Lungs. This fact is proved by the many testimonials handed to the Proprietor by men of acknowledged ability and reputation.
The following certificate is one of many that have been received by the Professor:—

Rio Janeiro May 1, 1869.
Professor Penedo.

Dear Sir,

„I feel bound to acknowledge the marvellous results effected by the Syrup, called

"VEGETABLE DE PENEDO,"

In the Province of Rio Grande, and it is, in my opinion, a most valuable medicine in all cases of Pulmonic Affections on Diseases of the Chest, many of my patients, who have had occasion to use your Specific for these complaints, have assured me that they invariably derived the greatest benefit.

SAWBONES.—Sir, you have the advantage of me. I really don't——
P———.—Tut, tut, Sawbones! Surely, you have not forgotten your friend Pickwick?
S———(thoughtfully).—Pickwick! Pickwick! I had, four years ago, a friend of that name, who suffered intensely from lassitude and loss of appetite; in fact, his aspect at that time was such as mine is now. I have not seen him during this time, and I greatly fear that the poor fellow has gone to "that bourne from . . . . "
P———.—Stop, stop, old fellow! I am your friend Pickwick, hale and hearty.
S———.—What, you Pickwick! my old schoolmate?—how is this? What wonderful medicine has effected this?
P———.—Medicine! No, it was a simple tonic, not generally considered a medicine, which I took three times a day, that has brought about this happy result.
S———.—Pray, what is the name of this wonderful tonic?
